

## EX:6(B)

B) Simulate the lifecycle stages for UI design using the RAD model and develop a small interactive Interface (OpenProj)

The screenshot displays the OpenProject web interface. The top navigation bar includes the OpenProject logo, a 'Demo project' dropdown, a '+ Create' button, and a '12 days left' timer with a 'Buy now' button. The left sidebar shows a 'Work packages' section with a search bar and a list of filters: 'All open' (selected), 'Latest activity', 'Recently created', 'Overdue', 'Summary', 'Created by me', 'Assigned to me', 'Shared with users', and 'Shared with me'. Below these filters is a 'PUBLIC' section with a '12 days left' timer and a 'Buy now' button. The main content area is titled 'All open' and features a table of work packages. The table has columns for ID, SUBJECT, TYPE, and STATUS. The work packages are listed as follows:

ID	SUBJECT	TYPE	STATUS
2	UPI Payments App Development	SUMMARY TASK	In progress
3	Plan app architecture and tech stack	TASK	In progress
4	Design user onboarding flow	TASK	In progress
5	Implement mobile number & OTP verification	TASK	New
6	Link bank accounts using UPI APIs	TASK	New
7	Setup UPI PIN management	TASK	New
8	Develop money transfer (send/receive) feature	TASK	New
9	Alpha App Release	MILESTONE	Scheduled
10	Post-Release Enhancements	SUMMARY TASK	To be scheduled
11	Implement bill payments & recharge section	TASK	New
12	Add rewards and cashback module	TASK	New
13	Final App Deployment	MILESTONE	New

At the bottom of the table, there is a '+ Create new work package' link and a '(1 - 12/12)' indicator.
